Summary of Significant Accounting Policies
(Unaudited – prepared by management)

February 15, 2004

Significant accounting policies

Interim financial statements

All figures as at and for the periods ended February 15, 2004 and 2003 are unaudited. The financial statements included herein, presented in accordance with generally accepted accounting principles in Canada for interim financial statements and stated in Canadian dollars, have been prepared by the company, without audit. Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted pursuant to such rules and regulations, although the company believes that the disclosures are adequate to make the information presented not misleading.

The statements reflect all adjustments, consisting of normal recurring adjustments, which, in the opinion of management, are necessary for the fair presentation of the information contained herein. These interim financial statements should be read in conjunction with the financial statements for the year ended November 15, 2003 and notes thereto included in the company's Annual Report. The company follows the same accounting principles in the preparation of interim reports.

Results of operations and mineral exploration activity for interim periods may not be indicative of annual results.

Ability to continue as a going concern

Chapleau Resources Ltd. is engaged in the mining industry at the exploration stage. At the exploration stage, a resource company has not determined whether its properties contain reserves that are economically recoverable, nor has it achieved significant revenue from production.

These financial statements are prepared on the basis of accounting principles applicable to a "going concern", which assume that the company will be able to realize its assets and discharge its liabilities in the normal course of operations.

The company's continued existence is dependent upon raising additional financing, the discovery of economically recoverable ore reserve in its properties and the attainment of profitable operations.

The financial statements do not reflect adjustments that would be necessary if the going concern assumption was not appropriate. If the going concern assumption was not appropriate for these financial statements, then adjustments would be required in the carrying value of assets.

CHAPLEAU RESOURCES LTD.

New property agreements entered into during the period

Hoarfrost – North West Territories

On February 10, 2004, the company entered into an agreement with 953725 NWT Limited to increase its interest in certain mineral claims known collectively as the Hoarfrost claims.

At the date of these financial statements, the company held a 35% interest in the property, and 953725 NWT Limited held a 65% interest in the property.

The agreement transfers a 50% interest in the property to the company in return for the company's commitment to expend a total of \$2.5 million in exploration on the claims as follows:

- (a) \$400,000 on or before December 31, 2004:
- (b) an additional \$600,000 on or before December 31, 2005:
- (c) an additional \$750,000 on or before December 31, 2006:
- (d) an additional \$750,000 on or before December 1, 2007.

Upon completion of the expenditures, the company shall have earned a total interest in the claims of 85%. 953725 NWT Limited retains a 3 1/2% NSR royalty interest in the property.

CHAPLEAU RESOURCES LTD.

February 15, 2004

1. Mineral properties and deferred exploration and development costs (continued)

New property agreements entered into during the period (continued)

La Pampa Copper-Gold Project, Argentina

On January 22, 2004, the company entered into an agreement with BHP Billiton World Exploration Inc. (BHP) to acquire an undivided 70% interest in BHP's La Pampa Copper-Gold Project.

To exercise the option, the company must incur an aggregate of US \$1,000,000 in exploration and maintenance expenditures on the property over three years, including:

- (a) at least US \$250,000 by the first anniversary of the agreement:
- (b) at least US \$500,000 (cumulative) by the second anniversary:
- (c) at least US \$1,000,000 (cumulative) by the third anniversary.

Excess expenditures in any year will be credited toward the expenditure requirements for the subsequent year(s).

If the company completes the aforementioned expenditures, it will have exercised the option and will be vested with a 70% undivided interest in the property.

2. Investment in Far West securities

	2004		2003	
	Cost	Market Value	Cost	Market Value
Far West Mining Ltd. (2004 – 5,352,900; 2003 – 5,228,200)	\$ 2,443,606	\$ 15,523,410	\$ 2,114,870	\$ 20,128,570

The investment represents a 12% ownership of Far West's issued and outstanding common shares.

CHAPLEAU RESOURCES LTD.

Notes to Interim Financial Statements
(Unaudited – prepared by management)

February 15, 2004

7. Stock based compensation plan

At February 15, 2004, the company has one stock-based compensation plan, which is described below;

New Stock Option Plan

In accordance with the new policies of the TSX Venture Exchange regarding stock option plans, the Board of Directors of the company adopted a new stock option plan effective March 23, 2003. The company, as a tier 1 company will now be able to grant options without vesting provisions and hold periods, provided that the grant is made at market price.

The purpose of the new plan is to allow the company to grant options to directors, officers, employees and consultants, as additional compensation. Options will be exercisable over periods of up to ten years as determined by the board of directors and are required to have an exercise price no less than the discounted market price prevailing on the day that the option is granted.

The maximum number of common shares that may be issued pursuant to options granted is 12,974,056 or such additional amounts as may be approved by shareholders of the company.

The new plan provides that the number of common shares together with all of the company's other previously established or proposed share compensation arrangements, may not exceed 20% of the total number of issued and outstanding common shares. In addition, the number of shares that may be reserved for issuance to any one individual may not exceed 5% of the issued shares on a yearly basis.

CHAPLEAU RESOURCES LTD.

Notes to Interim Financial Statements
(Unaudited – prepared by management)

February 15, 2004

7. Stock-based compensation plan (continued)

On January 29, 2004, the Company granted 1,250,000 stock options to non-employees. All of these options are fully vested and have an exercise price of \$0.67 for a ten-year period. Compensation expense to non-employees is determined using the Black-Scholes option pricing model. Weighted average assumptions used in calculating compensation expense in respect of options granted to consultants are as follows:

	<u>February 15, 2004</u>
Risk-free rate	4.0%
Dividend yield	Nil%
Volatility factor of the expected market price of the Company's shares	7%
Weighted average expected life of the options	5.0 years

8. Related party transactions

During the period, management fees of \$45,000 were paid to two directors.

9. Contingent liability

The company has been named the defendant in a lawsuit and a claim against the company has been filed in the amount of \$242,000. In the opinion of management, these matters are without substantial merit and no provision has been made for them in the accounts. However, should any loss result from the resolution of this claim, such loss would be accounted for as a current expenditure.

10. Comparative figures

Certain comparative figures have been reclassified to conform to the current period's presentation.

11. B.C. Mining Exploration Tax Credits

The company has applied for B.C. Mining Exploration Tax Credits in the amount of \$490,358 for the years ended November 15, 2000 to November 15, 2003. The claims have not yet been assessed and the amounts may change upon assessment.
